Dear Jennifer,

Tomorrow is Election Day. Because of you and thousands of other Ohioans who have stepped up to help our fellow Ohioans cast their ballots, our state will hold a safe, secure, and accurate election tomorrow—and the world will know and believe the voice of Ohio's citizens was heard in an honest and accessible election!

If you volunteered to be a poll worker but didn't get selected by your board of elections to serve, thank you for your patriotic dedication and willingness to step up. I sincerely hope that you stay engaged and serve as a poll worker in the future.

If you are among the over 56,000 who volunteered and were trained to perform this important duty, tomorrow is game day and we are ready! A record number of voters have already cast their ballots with few problems and, because of your training and the hard work of our boards of elections, I expect tomorrow to be no different. I am certain voters will feel confident and safe walking into the polling locations because of the new signage, enhanced cleaning procedures, physically distant voting machines, and, of course, because of your guidance and assistance.

Your work tomorrow is one of the most important jobs in our country. You should be proud that when you were needed, you stepped up to help your community make its voice heard during these difficult times.

Thank you for your important work.

Yours in service,

Frank LaRose

Frank LaRose
Ohio Secretary of State
